

Your Ultimate NZ Port Visibility Solution

Simplify Your Export Experience with Real-Time Shipment Information

Do you find it challenging to keep track of your shipments through various New Zealand ports?

At TradeWindow, we understand the importance of reliable and accurate information for your export business. That's why we've announced the recent integration with PortConnect, giving you a one-stop solution to increase visibility and help you make better-informed decisions.

Get Unparalleled Access to Your Shipment Information

With TradeWindow Cube + PortConnect, you'll have access to all the necessary shipment documents and events in one convenient place. Our innovative TradeWindow Cube platform consolidates your data, streamlining the export process and giving you the full picture of your shipments.

Benefits of TradeWindow Cube + Port Connect

TIMELY REPAYMENTS

Stay informed about when your inventory has been loaded. With increased visibility, you can quickly initiate payment requests according to the terms outlined in your contracts, reducing delays and improving cash flow.

REDUCED LIABILITY

With the PortConnect integration, users can view when your inventory has been loaded, allowing you to transfer ownership and release yourself from liability according to the insurance terms in your contract.

PROACTIVE SHIPMENT MONITORING

Check in on the loading progress of your shipments to identify and resolve potential issues, ensuring on-time departures and avoiding costly delays.

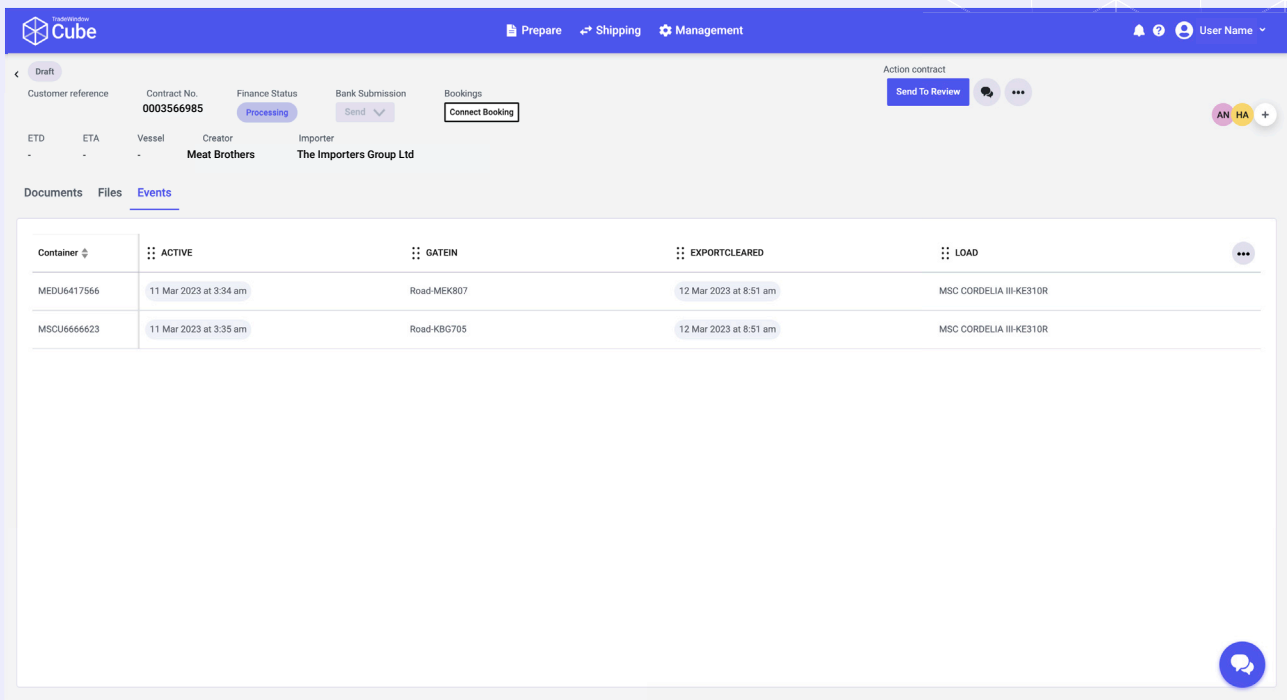

VESSEL TRACKING

TradeWindow Cube offers advanced vessel tracking, allowing you to trace your shipment's journey once it departs from the NZ port. Stay informed and keep your customers updated on the whereabouts of their goods.

TradeWindow Cube + PortConnect Integration

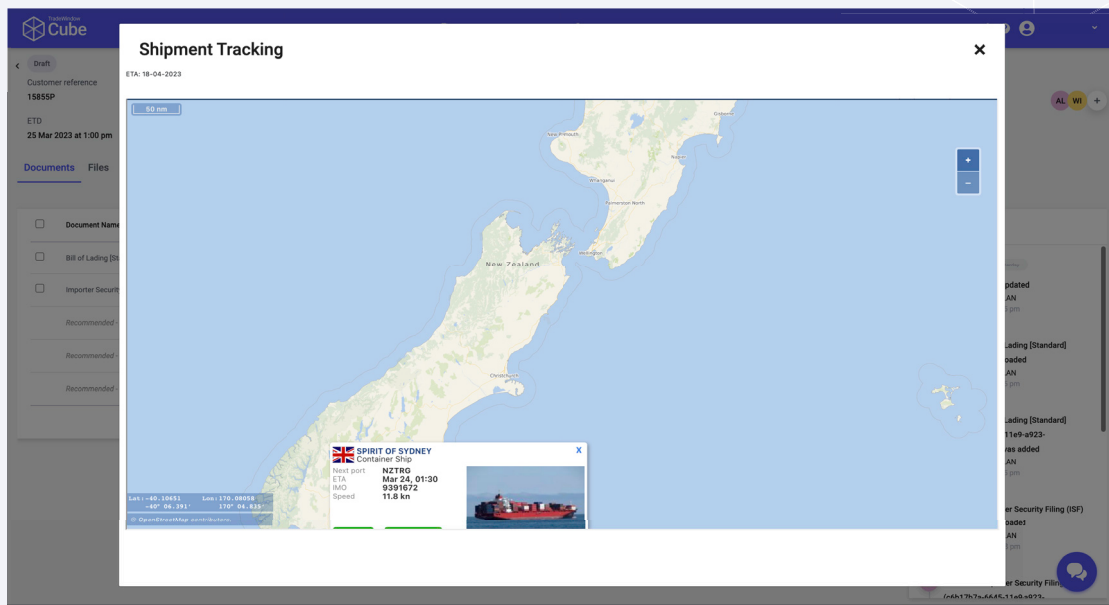

TradeWindow Cube + PortConnect Events

The screenshot shows the TradeWindow Cube + PortConnect Events interface. The top navigation bar includes 'Prepare', 'Shipping', and 'Management' options. The main content area displays a table of events with columns for Container, ACTIVE, GATEIN, EXPORTCLEARED, and LOAD. The table contains two rows of data for containers MEDU6417566 and MSCU6666623, both with an event on 11 Mar 2023 at 3:35 am. The interface also shows a 'Draft' status, customer reference '0003566985', and various action buttons like 'Send To Review' and 'Connect Booking'.

Container	ACTIVE	GATEIN	EXPORTCLEARED	LOAD
MEDU6417566	11 Mar 2023 at 3:34 am	Road-MEK807	12 Mar 2023 at 8:51 am	MSC CORDELIA III-KE310R
MSCU6666623	11 Mar 2023 at 3:35 am	Road-KBG705	12 Mar 2023 at 8:51 am	MSC CORDELIA III-KE310R

TradeWindow Cube Shipment Tracking Tool

The screenshot shows the TradeWindow Cube Shipment Tracking Tool interface. The main content area displays a map of New Zealand with a ship icon indicating the location of the vessel 'SPIRIT OF SYDNEY'. A pop-up window provides details for the ship, including the next port 'NZTRG', ETA 'Mar 24, 01:30', IMO '9391672', and Speed '11.8 km'. The interface also shows a sidebar with document names and a top navigation bar with 'Draft' and 'ETA: 18-04-2023'.
